## Doctors Tell President He Is Physically Fit To Serve Presidency Another 10 Years

By MARVIN L. ARROWSMITH

WASHINGTON (AP) — President Eisenhower's doctors say he is physically able to serve a second term. They go further and say that from a medical standpoint he appears fit for "another 5 to 10 years" in the presidency.

That is the optimistic report Eisenhower takes with him when he flies today to Thomasville, Ga., for about a week's vacation at the estate of Secretary of the Treasury Humphrey. There he quite likely will reach a final decision on whether to seek re-election—if he has not already done so.

"The choice (regarding a second term) is his, not ours," said Dr. Paul Dudley White, Boston heart specialist, in telling a news conference about the medical report he and his colleagues gave Eisenhower.

"Made Good Recovery" The President's six doctors said in a prepared statement Eisenhower "has made a good recovery" from the heart attack he suffered Sept. 24, and his health "continues to be satisfactory."

Eisenhower undoubtedly will give the physicians' report careful consideration before he makes his announcement, which he has indicated will come around March 1. But he told a news conference a week ago today:

"I think I will probably trust my own feelings more than I will the doctors' report."

Nevertheless, the medical appraisal was a cause for much jubilation among Ike's political supporters.

Sen. Carlson (R-Kan.) summed it up in saying:

"It's the best news the people of the United States and the world have had since the President was stricken. This gives added hope and assurance he will serve for another four years."

Adlai E. Stevenson, Eisenhower's opponent in 1952, said in Seattle that "like all Americans I am of course delighted at the favorable report . . ."

## ORAL RULING GIVES SHARRAH TAX HEARING

The Adams County court orally held this morning that it has a right to hear the defense of William Sharrah, Biglerville R. 2, against the lien placed on his property by the Franklin Twp. School district, "as the only way in which he can obtain a hearing."

The oral ruling this morning covered the question of law concerning how Sharrah can get a hearing on the lien for \$53.13 that the school district placed on Sharrah's property when he refused to pay his 1954 tax, arguing that it was based on erroneous assessment.

Today's hearing was on a demurrer to the affidavit of defense filed by Sharrah, in which it was argued that the school board had no choice except to use the assessments furnished by the chief assessor of the county and that had Sharrah objected to his assessment he could have appealed it before the county commissioners sitting as the assessment appeals board, a step which Sharrah did not take.

May Go To Jury Trial The action of court, if the court adopts the same stand when it hands down a written opinion on the matter, will permit Sharrah to bring the matter to a jury trial if he wishes. He claims that in 1953 when he bought the property the chief assessor listed the purchase price as \$14,000 instead of \$14,001, the correct figure. Thus Sharrah's property was assessed at \$12,125 instead of \$12,537, Sharrah said that in 1953, the chief assessor, informed of the error, called the tax collector to arrange for an exoneration. The error was continued, he alleges, into the 1954 assessment, and the lien was placed because he refused to pay the tax based on the assessment he claims is erroneous.

Argument was held on a rule (Continued on Page 2)

## Millions To Mark World Day Prayer

Adams Countians are preparing World Day of Prayer services to be held Friday as a part of the world-wide observance. People of all ages and races throughout the free world will conduct services in more than a thousand languages and dialects around the earth.

The program in the United States was written by American Indian leaders from the Cook Training School, Phoenix, Ariz.

The following radio and TV networks are cooperating in the World Day of Prayer observance: ABC radio: 7:45 p.m. Thursday and on Friday 9 and 10 a.m.; NBC radio: 4:30 p.m. Thursday or Friday and Friday at 10 a.m. and 4 p.m.; NBC TV: 11 a.m. Friday; Mutual: 2 p.m. Friday; CBS radio: 10:30 p.m. Friday, and CBS TV, 4 p.m. Friday.

The President was accompanied by Mrs. Eisenhower and her mother, Mrs. John S. Doud, and by a small staff including press secretary James C. Hagerty.

The President appeared in high spirits. He chatted for a few moments at the foot of the landing ramp with an old golfing friend, Col. Tom Belshe, who came to the airport to see him off.

Eisenhower wore a light tan trench coat and a brown fedora. Mrs. Eisenhower wore a gray suit with matching hat and had a fur piece over her shoulders.

The President planned to get in some quail hunting and perhaps some golf.

How he feels after tramping the piney woods and broom sage fields in pursuit of birds may determine his decision as to whether to run again.

Miss Mae Kuhn was announced by the executive committee of the Beta Sigma Phi chapter at Beta Sigma Phi as the new president of the unit at Tuesday evening's meeting of the sorority at its rooms on Lincoln Square.

The new officers will serve until the installation of new officers in May. Named to the nominating committee Tuesday evening were Mrs. Magnus Flaws Jr., Miss Lois Temple, Mrs. Julia Holtzworth, Mrs. Harry Spangler and Mrs. Donald Jacobs. The committee will report at the next meeting and the election will take place in March.

## MISTAKEN IDENTITY

SALEM, Ore. (AP) — Mrs. C. W. Hedges was puzzled when she returned to her parked car to find it locked, but she went to police when she found a shotgun, cartridge belt and a pair of men's shoes inside.

Next day Jim D. Tallman arrived at the police station to report the articles missing. He said he was returning the articles to his brother-in-law, saw a parked car on the street, and mistakenly thinking it the brother-in-law's put the articles inside.

To be sure they wouldn't be stolen, he locked the car which was a model which didn't require a key.

## Day Care Center To Move Next Month

The Adams County Day Care Center will move from the Female Academy Building, W. High St., to the former High St. school, now the Gettysburg Office Center, owned by Wilbur Plank, about the middle of March. Mrs. Rose Marie S. Coates, teacher at the center, told the Adams County Elementary Principals Association at its meeting Monday evening at the Court House.

Mrs. Coates said the rooms at the former High St. School building will be available March 1, but that it

will take about two weeks more before furniture is secured and the actual move can take place.

Most of the meeting was devoted to discussion of various phases of the Day Care Training Center work. The elementary principals were presented with Valentines of white lace, with a red heart, with "To My Valentine" printed in pencil, made by the youngsters at the center. President Lewis M. Bosserman presided at the meeting.

## Today's Talk

**HURTS**  
We go through life experiencing many hurts, but those most poignant are not always of the body but of the heart. They are aching hurts that stay around for a long time. The dart of an angry word or bitter misjudgment.

It is so easy to say pleasant things. We feel comfortable with people who make it their business to radiate cheer, hope and happiness. Once a word is spoken it begins to live — and often that word can cause endless hurts to the mind and heart, and to the soul as well. Why can't we daily utter in silence this prayer: "Oh, Lord, set a guard about my lips!"

None of us like to get hurt because of something said by someone else, then why should we hurt others? We need never run out of nice things to say about other people — and what a wonderful way to gain friends and distribute good will! I have met people with whom you can't be for five minutes without their tearing someone to pieces — with their jealousy and unjust conclusions.

I would like to look upon the grave of a young girl, somewhere in New England, I read about many years ago. Engraved upon that stone was the name and these four words: "She was so pleasant." How could any of us look upon such a grave without doing a lot of self-examination? What spiritual rewards there are for us all — just forever being pleasant to others. We then invite them to be pleasant to us!

Opportunities for happiness are too many to have them spotted up with distributed hurts and unkind sayings. That famous phrase of always saying good things about others or not saying anything will always remain a good one to follow. Think before you speak is also an asset that increases with age!

Tomorrow Mr. Adams will talk on the subject: "Go Pioneering!" Protected, 1956, By The George Matthews Adams Service

## Just Folks

**ASH WEDNESDAY**  
Now begins the Lenten season:  
Faith and true devotion give it.  
If there has to be a reason,  
For the soul's sake let us live it.

In the wilderness beside Him,  
So is told the Master's story,  
Forty days the devil tried Him,  
Offering worldly power and glory.

"If divine," as you're insisting,  
"Change to bread this stone I give it."  
Said the Savior, him resisting:  
"Not by bread alone, man liveth."

Since that time and still forever,  
Fleeting days or ages creeping,  
Lent, world wide, will men endeavor  
For the soul's sake to be keeping.

NEW ORLEANS  
CLEANS UP TO  
START LENT

NEW ORLEANS (AP) — Church bells sounded the beginning of Lent today as New Orleans cleaned up confetti and beer cans after one of its most colorful Mardi Gras celebrations.

Thousands of tourists jammed into the city to see Rex, Lord of Misrule, hold sway in a realm of daytime merrymaking and Comus, God of Revelry, rule over a night kingdom of torchlit parades and fancy dress balls.

The celebration started at dawn when the first maskers appeared on the streets, continued at its high pitch as Zulu, King of the Negroes, departed from a barge at the foot of Canal Street, and reached a frenzied climax with the big Rex and Comus parades.

**Impromptu Antics**  
High-stepping bands, gaudily decorated floats and precision marching units graced the Rex and Comus parades, but the real show was the street dancing, general masking and impromptu antics that prevailed everywhere in the city.

Stores were closed, downtown streets blocked off to traffic and inhibitions cast aside to make way for the thousands of costumed citizens and tourists who turned out as clowns, hula dancers, men from Mars, plumed knights and endless other characters.

**Parties Kept Going**  
Intermittent rain fell during the afternoon and early evening, making sloppy going for the marchers but not slightest difference to the masqueraders, who milled through the French Quarter and downtown streets throughout it all.

The official celebration came to an end at midnight when the municipal auditorium and the dancing courts of Rex and Comus joined to toast each other's health and stage a mass ball.

But for many hours thereafter jazz continued to pour from the cubby-hole night clubs on Bourbon Street, strippers plied their trade and hundreds of private parties went on all over the city.

Something New In  
Valentine Gifts

JUNCTION, Utah (AP)—While his 8-year-old grandson watched, State Rep. McKinley Morrill began taking the ribbon from a Valentine's Day present the boy had just handed him. Found Guilty Of  
"Fright Slaying"

JACKSONVILLE, Fla. (AP)—Pren-tiss T. Parrish, 26-year-old shipyard worker, was sentenced yesterday to 35 years for the "fright slaying" of his former wife.

The woman, Mrs. Shirley Ann Miller, 19, became terrified when Parrish struck at the window of her car with a bayonet. She sped away. Parrish pursued in another car. Mrs. Miller collided with an automobile at an intersection and was killed.

Nathan Schevitz, assistant state attorney, said the second-degree murder charge was based on the theory that Parrish so terrified Mrs. Miller that her involuntary act of passing through a stop sign at the intersection became the act of Parrish.

"Have you seen your doctor lately, Mam?" asked Turner.

## WORLD DAY OF PRAYER

Gallantry Backfires  
For Sooty Suitor

ALTADENA, Calif. (AP)—The gallantry of 9-year-old Dennis Ellis backfired. He became wedged in a chimney when he tried to go down it and open the front door for his girl friend, who had been locked out.

Dennis says he has climbed down his own chimney several times "but ours is bigger and I never got stuck before." He got

just above the damper over the fireplace in Patty Wilson's house and discovered he couldn't go any farther—up or down.

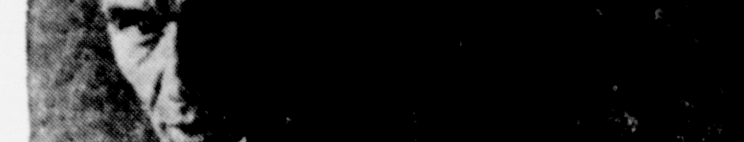

Patty's parents, Mr. and Mrs. Paul Wilson, were away from home, but she summoned firemen, who used ropes to pull Dennis up, sooty but unharmed.

Asked about his girl friend, Dennis answered: "She's my second girl friend. I don't think I want any more."

## Warriors Make Late Spurt To Edge Waynesboro 49-45 For 7th Win; Jayvees Bow

After trailing throughout the first three periods during which they gave one of their poorest performances of the year, the Gettysburg High School Warriors caught fire late in the third frame and finally swept to a 49-45 victory over Waynesboro here Tuesday evening in a South Penn League game.

Waynesboro led by a comfortable margin during the first half and after 3:30 minutes of the third quarter appeared well on the road to victory when it led 35-23. At that point the tide turned and Coach George Korney's outfit rolled up 13 straight points to get their first lead at 36-35 after 50 seconds of the final round. The final minutes produced some hectic moments but after the score was tied at 40-40 the Warriors took the lead for keeps but it was anybody's game down to the wire.

The visitors used a pet play of lobbing the ball to Allie Kohler who got behind Warriors defenders in the first half and chalked up five goals and three fouls to stay in front throughout. Waynesboro led 33-8 at the quarter and 26-17 at intermission. Rolf Johnson landed eight and Earl Little seven tallies to keep the locals in contention.

**GHS Roars To Lead**  
Waynesboro hiked its margin to 35-23 after 3:30 of the third quarter and then the Warriors put on the 13-point spree with Johnson landing seven, Hess two and Tom Kitzmiller two. The quarter ended with the visitors on top 35-23 but Johnson's four tallies sent the Forney-men to the front at 36-35 in the opening minute of the final frame. Shryock hit from the side for Waynesboro and Hess duplicated for Gettysburg. Weishaar made it 40-37 before Pete Eden landed a one-hander and converted after being fouled to knot the count at 40-40 after 1:20 minutes of the final frame.

**Nip And Tuck Finish**  
Hess added two free throws for the Warriors before Kohler netted a foul for Waynesboro. Hess connected from the side and a little later looped a foul to make it 45-41 with 2:30 remaining. Shade got credit for a goal when a Warrior pass went off his hands and through after a scramble underneath. Little dribbled through for a layup before Kohler netted a similar shot. With 18 seconds remaining Johnson was fouled and converted both to sew up the win.

Kohler led all scorers with 22 while Johnson grabbed 19 with Little and Hess each adding 11. The victory was the seventh against 10 losses for Gettysburg. They invade Hanover Friday night for another league affair.

**Fade In Last Half**  
A strong second half gave the Waynesboro reserves a 48-28 decision in the preliminary. At half time the visitors led 16-12. Steinour, Keefe and Staley each landed eight points for the locals while Montgomery and Keller led the winners.

## G-BURG JUNIOR HIGH DIVIDES AT WAYNESBORO

Despite showing vast improvement in moving the ball, the Gettysburg Junior High cagers dropped a 31-23 decision at Waynesboro Tuesday evening in a South Penn contest.

Waynesboro took an 8-6 lead in the first period and ran its lead to 23-12 at half time. The Braves collected 11 goals to their opponents' 13. Gettysburg was not given a foul shot until only 15 seconds remained in the third period and wound up with one conversion in but three tries.

Bob Furney and Johnny Millard netted nine and eight points, respectively, for the Braves who dropped their seventh game against two wins. Weagley led Waynesboro with 16.

Don Tiziani's fast-stepping reserves won their fifth straight to make their mark 7-2 by easily winning the preliminary 31-19. The scrubs led by a comfortable margin all the way with Jimmy Bricker setting the pace with ten tallies.

Hanover Junior High will play here Friday evening.

## IKE'S DECISION IS MATTER OF "CONSCIENCE"

By JAMES MARLOW

Associated Press News Analyst  
WASHINGTON (AP)—Until he decides finally whether to run again President Eisenhower will be a lonely man, living with his conscience. Because his decision is a matter of conscience, no one can really help him make it.

He said recently, "I could devoutly wish there were some method by which the American people could . . . point out the path of my true duty. But . . . people this is a question that first I alone must answer."

It would have been easy and necessary for him to decide against seeking a second term if his doctors, after their checkup this week, had said he could not physically endure another four White House years.

Not Indestructible

They said the opposite yesterday.

day. In doing so they put the decision entirely up to Eisenhower.

It is not unusual for active men like Eisenhower to have a sense of indestructibility. They can never again feel that way after a heart attack. It is piercing and tangible evidence of mortality.

No one who has ever had an attack can forget this:

The attack was the result of deterioration in a blood vessel. Something in his body caused that deterioration. So a man who has had an attack has more reason to believe that there is deterioration which will cause another attack than has a man who has never had an attack.

Uncertainty Emphasized

There was no reason for Eisenhower's doctors to think he might have a heart attack, up to last Sept. 24. Now, as he knows, he could have another tomorrow even though his doctors tell him, from what they can see, he could serve actively for 5 to 10 more years.

The uncertainty of the President's life, or any man's, was illustrated yesterday by his personal physician Maj. Gen. Howard M. Snyder, who told a news conference:

"I thought he was in very good

health just prior to his heart attack—I would say we were a little led astray in our estimate that he was as well as we thought he was . . . We don't know that he won't have another cardiac accident."

Good Of Country Involved

That possibility, and what it might mean to the country, will be on Eisenhower's conscience as he turns over the problem in his mind. He has emphasized his decision will be based on what he thinks is good for the country.

He doesn't think it's good for the country for a president to die in office or become unable to carry on his job. He has said it is a "very critical thing to change governments in this country at a time that it is unexpected."

A man who has had a heart attack may never have another. Since that is a possibility he may feel that it is good for the country for him to take a chance on serving a second term.

CASABLANCA, French Morocco (AP)—A U. S. military police captain is the first known American victim of the terrorism which has wracked this French protectorate for more than two years.

Capt. Nelson Custer Brown, 42, a native of Green Forest, Ark., was shot and killed Monday night as he drove with his wife on the highway to the U. S. Air Base at Nouaceur, 15 miles south of Casablanca.

SHARON, Pa. (AP)—Pickets early Tuesday overturned an auto of a nonstriker at the Westinghouse Electric Corp. plant, police reported. Nobody was injured.

## EIGHT STATES ADMIT NEGRO TO COLLEGES

By THE ASSOCIATED PRESS

Negroes are peacefully breaking color barriers at formerly all-white Southern colleges and universities in sharp contrast to the bitter demonstrations that greeted Antheine Lucy's attempt to attend the University of Alabama.

Eight Southern states have accepted Negroes in both graduate and undergraduate divisions, an Associated Press survey showed today. No violence attended these changes which upset patterns that had stood for generations.

Arkansas admitted a Negro to its university law school in 1948. There was no incident. Hundreds have followed quietly.

Live In Dorms

Other Dixie states with Negro students ranging from a handful to hundreds include Oklahoma, Texas, Virginia, Kentucky, North Carolina, Tennessee and Louisiana. In none of these states has there been any violence. Many of the Negroes live in campus dormitories and most eat in school cafeterias with the white students. A few have been admitted into professional fraternities but there is little social mingling.

Most of the schools which have admitted Negroes, either voluntarily or under court order, had no exact figures. Estimates range from 500 to more than 1,000 in the eight states which practice collegiate integration.

Dr. Guy Johnson, professor of social science at the University of North Carolina, has completed a study of the subject and estimates that about 1,000 Negroes colleges with another 1,000 in privately endowed institutions.

Works Both Ways

A federal court order broke the racial barrier in North Carolina last fall at the general college level when three Negroes enrolled at the university at Chapel Hill. One lives in a dormitory on the campus and the other two plan to move in next fall.

Integration is working both ways in Tennessee. There are 52 Negroes in six white colleges and

universities there and 14 white students at Fisk University at Nashville, a Negro school. The University of Tennessee has 32 Negroes in its graduate schools, 17 on the main campus at Knoxville and 15 in its school of social work at Nashville.

Negroes have been permitted in the University of Kentucky's graduate school since 1949 and at the University of Louisville since 1951. Kentucky admitted Negro undergraduates in 1954. All live off the campus. At Louisville some Negro members of the football squad live in dormitories on the campus but have separate rooms.

Others Have Made Change

State-supported colleges began opening their doors to Negroes in Texas after the Heman Sweatt federal court ruling in 1950. Sweatt, a Houston mail carrier, carried his fight to gain admittance to the University of Texas to the U. S. Supreme Court and won. He left the university two years later "because of scholastic difficulties."

Louisiana State University has about 120 Negroes in its graduate schools and there are about 160 undergraduate Negroes in three other colleges in the university system. LSU first accepted Negroes under court order in 1950.

Virginia has several Negroes in its state universities. Negroes were admitted as undergraduates at the University of Virginia for the first time this year. They eat in the university cafeteria and live in dormitories but not with white students.

The Florida Supreme Court has ruled that Negroes may be admitted to white universities but has not yet decided when its decision should become effective.

Working-age groups in the United States increased only 3.8 per cent from July 1, 1950, to July 1, 1955, compared with an increase of 19.7 per cent among the children under 14 and people more than 65 years old.

## HERE'S HOW OUR NEW GAS RATES CHANGE YOUR MONTHLY GAS COSTS

We have had new gas rates in effect since January 20. The January 20 rates reduce the rates you paid between December 5, 1955, and that date. They are higher than rates prior to December 5.

New Rates Add 6% To 9%  
For Gas Heating Users

This table shows you how our new rates change heating customers' monthly gas costs — in comparison with rates prior to December 5.

Monthly Consumption (Cubic Feet)	Comparable Costs At: Old Rates	New Rates	Increase	Percent Increase
10,000	\$ 8.71	\$ 9.48	\$ .77	8.8
15,000	12.16	13.08	.92	7.6
20,000	15.61	16.68	1.07	6.9
25,000	19.06	20.28	1.22	6.4
30,000	22.51	23.88	1.37	6.1
35,000	25.96	27.48	1.52	5.9
40,000	29.41	31.08	1.67	5.7
45,000	32.86	34.68	1.82	5.5
50,000	36.31	38.28	1.97	5.4

Any increase in monthly costs above this 6%-9% level can only be due to increased gas consumption. Total annual costs for a typical customer — one who uses 240,000 cu. ft. of gas per year for all purposes — increase from \$187.32 to \$200.16 under our new rates. This amounts to \$12.84 or 6.8%.

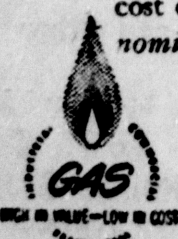

Most Non-Heating Customers  
Pay 62 Cents More Monthly

Here's a table that gives you comparable changes for residential non-heating customers. A check of 2,529,000 residential bills over a year's time shows that 1,263,000, or about one-half, were for 5000 cubic feet or less.

Monthly Consumption (Cubic Feet)	Comparable Costs At: Old Rates	New Rates	Monthly Increase
1,000	\$1.50	\$2.00	\$.50
2,000	2.19	2.72	.53
3,000	2.88	3.44	.56
4,000	3.57	4.16	.59
5,000	4.26	4.88	.62
6,000	4.95	5.60	.65
7,000	5.64	6.32	.68

Natural Gas Still Best Buy  
Among All Automatic Fuels

Gas rates, which stayed the same during eight years of some of the worst inflation in our nation's history, have now increased to reflect increases in our own cost of doing business. This increase in the cost of gas still runs well under increases in other cost of living. Under our new rates, natural gas still continues to be your most economical automatic fuel.

## JUDGE GUNTHER QUITS RACE FOR SUPREME COURT

ERIE, Pa. (AP)—Judge Blair F. Gunther's withdrawal from the Republican party race for State Supreme Court Tuesday eased somewhat the possibility of a GOP primary battle in April.

Judge Gunther announced his withdrawal Monday night at a testimonial dinner in his honor by the Federation of Clubs in Erie. He cited "personal reasons."

The State Superior Court Judge had planned to run for the GOP nomination against Orphans Court Judge Benjamin R. Jones of Luzerne County, who got the backing of the organization.

Said Judge Gunther: "I have been encouraged by the strong support, both moral and material, received from my friends in most of the counties of the commonwealth."

**Race For Senator**  
"However, despite their urgings that I continue in the race, there are overriding personal reasons which would keep me from devoting my full efforts to a campaign at this time."

Gunther's withdrawal does not eliminate the possibility of a GOP primary fight. Still a threat to GOP harmony is State Treasurer Weldon Heyburn who has made it known that he would be willing

to run for the U. S. Senate nomination against incumbent Sen. Duff.

Also a big question mark is Charles R. Barber who has been eyeing the possibility of seeking the nomination for state treasurer. Barber is not allowed to succeed himself as auditor general. The last day to withdraw from the primary is Feb. 27. And it may take until that time to determine if the Republicans can actually avoid a primary battle.

## NAME LAWYER FOR COURT POST

HARRISBURG (AP)—It was up to the Republican-controlled Senate today to decide if Philip O. Carr, 40-year-old Uniontown lawyer and son of a county judge, should fill a State Superior Court vacancy.

Gov. Leader named Carr to the post Monday and asked the Senate for confirmation.

Carr was a surprise pick last week as the Democratic organization candidate for a 10-year term on the bench. If confirmed for the unexpired term ending in January, Carr would run in the April 24 primary as a sitting judge.

The election will fill the vacancy created by the death of Judge F. Clair Ross of Harrisburg early last month.

Carr was named the Democratic organization candidate at the advice of the governor. Leader said at that time he would send Carr's

## 8 INJURED AS TOKYO ROCKS IN EARTHQUAKE

TOKYO (AP)—A stout earthquake shook up Tokyo and the surrounding area for about 30 seconds Tuesday. Eight Japanese were injured, three seriously, but the world's third largest city escaped major property damage.

More than 90,000 homes were without electricity as high-voltage cables snapped. A highway bridge leading from the city cracked and was closed to traffic. Pavement in front of the Tokyo railroad station caved in and chimneys cracked off public bathhouses.

Downtown buildings rocked with the quake. Many workers poured into the streets, shouting: "Jishin! Jishin!" (Earthquake! Earthquake!). But calm was soon restored.

**100-Mile Area**  
The quake, which registered 4 on a scale of 7 maximum intensity, was centered 50 miles north of Tokyo and 30 miles underground. It was felt over an area 100 miles in diameter. The earth apparently absorbed most of the shock, holding damage to a minimum.

Moderate earth tremors also shook northern Luzon Island in the Philippines early today but no damage or casualties were reported.

The shock Tuesday tore open an inch-wide gash in the corridor leading from the famed Imperial Hotel to its new annex. Built by Frank Lloyd Wright in 1922, the hotel is one of the few major buildings that survived the great 1923 earthquake and fire in which more than 100,000 were killed.

name to the Senate to fill the unexpired term.

He is the son of Judge Russell Carr, presiding judge of the Fayette County Court. Carr was assistant U. S. attorney for the Western Pennsylvania District for five years until 1953 when he returned to private practice.

There were 45,000 people injured in New York City traffic accidents in 1955.

## Khrushchev Asserts Soviets Invincible

MOSCOW (AP)—Nikita S. Khrushchev told the world Tuesday "there are only two roads, peaceful co-existence or war," and declared the Communist bloc is now invincible.

The Soviet Communist party boss pictured the Western position as weakening while the Soviet Union and its Red associates grow stronger. But the warning was accompanied by a statement that war is not inevitable.

Khrushchev spoke before cheering delegates at the 20th Congress of the Soviet Communist party in the Kremlin, the first such gathering of the post-Stalin era.

He laid down a five-point foreign policy in which improvement of relations with the United States, Britain and France was one key point. Maintenance of the "defense potential of the Soviet Union" was another. Khrushchev said Russia must not lag behind the Western powers in armaments.

## SEGREGATION CASE APPEALED

BIRMINGHAM, Ala. (AP)—The Autherine Lucy segregation case will be appealed to the U. S. Supreme Court by the University of Alabama but that appeal will have no effect on the Negro student's legal efforts to force her way back into school.

Defense attorneys announced on Monday they would make the appeal. The university previously had been denied its request for a delay in application of the lower court ruling that the school could not deny admission to any student because of race or color.

The Negro student was excluded from classes Feb. 6 after three days in the university when rioting broke out. She is the first Negro ever enrolled at the university at Tuscaloosa.

Miss Lucy has asked the Federal Court at Birmingham to order her readmission and that case is set for hearing Feb. 29.

At Tuscaloosa, President O. C. Carmichael of the university called a student and faculty convocation for Thursday in two sections, one at 11 a. m. and the other 45 minutes later.

The convocation presumably was called to discuss the Lucy case.

## On The U. S. Political Front

SCRANTON, Pa. (AP)—Sen. Duff (R-Pa.) labeled the Democrats the party of "big promises and small performance with big taxes" at a Lincoln Day dinner here Monday night.

Speaking to an overflow crowd at the affair sponsored by Lackawanna County Republicans, Duff said billions of dollars were wasted by "Haphazard Harry" Truman.

Duff also condemned Gov. Leader's "repudiation of a compromise tax program which left his own House leader in tears." Duff referred to a compromise tax plan in the Legislature which led to a dispute over whether the governor would sign it or allow it to become law by default. Leader then reversed himself and agreed to sign the tax bill. The bill is still pending.

**"Party Of Peace"**  
Duff called the GOP the "party of peace" and praised President Eisenhower as "the greatest president since Lincoln."

In an interview, Duff said he would be "happy to campaign in every hamlet of Pennsylvania" against Joseph S. Clark, former Democratic mayor of Philadelphia who is seeking to unseat Duff in the Senate.

About Eisenhower's running again, Duff said:

"I'm sure he wants to and if he can take it physically he will run. There is nobody as much needed as Ike by the nation and the free world today."

## London Woman Burns In Flight Attempt

PHILADELPHIA (AP)—A woman visitor from London burned to death Tuesday when she tried to escape from a burning house in the Roxborough section of Philadelphia.

The victim was Mrs. Sarah Ann Kitchen, 66, a British visitor at the house since last October.

Firemen rescued Miss Bertha Hollock, 68, by throwing up a ladder to an upstairs window. It took them 20 minutes, however, to subdue roaring flames on the first floor. There they found the body of Mrs. Kitchen.

## Sun Of Canada Increases Policyholders' Dividends

Cost of insurance reduced for seventh successive year; record \$761 million new business reported.

A new sales record for the Sun Life Assurance Company of Canada and a new dividend scale that will reduce the cost of insurance to policyholders for the 7th successive year have been announced by George W. Bourke, President, at the Company's 85th Annual Meeting. New life insurance sold in 1955 amounted to \$761 million, an increase of \$65 million over the previous year. Much of this new insurance was purchased in the United States where the Sun Life has 37% of its business in force. Included in the new business figure was \$244 million of group insurance, exceeding the high level of production of the previous year. Total Sun Life insurance in force now exceeds \$6½ billion. Dividend scales are being increased, and in 1956 the Company will pay to its policyholders dividends amounting to approximately \$28 million.

The report also reveals that \$42 million was paid to beneficiaries of deceased policyholders, and \$94 million paid to living policyholders and annuitants. The \$136 million paid in 1955 brings the total paid by the Company since its organization to \$3 billion.

Mr. Bourke pointed out that the record construction of new homes in the United States and Canada has been financed to a great extent out of the premiums paid by policyholders to life insurance companies. Mortgage loans made by the Sun Life during 1955 amounted to \$108,502,000 bringing the Company's total mortgage investment to \$399,966,000.

In his report, Mr. Bourke expressed the belief that the high levels attained in the insurance business would be exceeded in 1956, and that life insurance ownership would rise to a new peak. "The public trust which the Sun Life enjoys today," he declared, "is based not only on confidence in the Company, but also on the sound principles on which the industry at large is built. There is every reason for us to look ahead to continued public trust and to further success and achievement."

A copy of Sun Life's complete 1955 Annual Report, including the President's review of the year, is being sent to each policyholder, or may be obtained from J. C. Stahl, District Supervisor, Gettysburg, or J. W. Stonebraker, District Representative, Cashion.

## Accuse Reds Again Of Violating Truce

PANMUNJOM, Korea (AP)—The U. N. Command accused the Communists again Tuesday of bringing military supplies and warplanes into North Korea "in cynical violation of the armistice" and demanded a halt.

It also asked for an accounting of all military shipments into North Korea since the armistice was signed 2½ years ago.

The new senior Allied member of the Joint Armistice Commission, Rear Adm. Walter E. Moore, made the charges in a meeting with Chinese and Korean Communist members.

Dr. Richard Newsham, local veterinarian, discussed calf diseases, "pneumonia and scours," at a meeting of the Adams County 4-H Dairy Club Monday evening at the Adams County Court House.

The president, Russell Grove, presided. Plans were made for future activities. The group will meet again March 12 at 8 p. m. at the Court House.

MOSCOW (AP)—The Soviet Union has indicated it wants to step up visiting between Russia and the United States but it suggests there should be some changes in U. S. laws to get it done.

The Russians frowned especially on fingerprinting and the "signing of special questionnaires" as a requirement for visas for private visitors to enter the United States.

## FINE YOUTHS FOR WILD DRIVE

WOODBURGE, N. J. (AP)—Three Delaware youths have been fined a total \$101 in Rahway following a wild ride up Rt. 1 on Sunday and the driver of the auto answers to five traffic tickets here.

Rahway Magistrate William S. Gurkin fined the driver, Allen Gregor, \$54 for reckless driving and \$19 for failing to stop at the signal of Motor Vehicle Inspector James L. Dunn.

The judge levied fines of \$14 each against Richard Peters, 17, and his brother, George, 22, on disorderly persons charges.

## Chased Into Auto Court

Dunn captured the three and two other youths after chasing them into a Rahway auto court, blocking the entrance with his own car and pulling a gun on them. He said they had reached speeds up to 100 miles an hour. All are from Newark, Del.

One of the other youths, Howard Griffiths, was released in bail for a later hearing. Dunn said he was AWOL from Bolling Air Force Base, Washington, D. C.

The fifth occupant of the car was held for juvenile authorities. His name was not released.

London is about 10,800 miles from Bombay via the Cape of Good Hope and about 6,300 via Suez.

## Have You Seen This Fugitive?

He is one  
of the ten  
most wanted  
men by the  
FBI

FREDERICK J. TENUTO

The story of dark, stocky Frederick "The Angel" Tenuto describes a juvenile delinquent with an inferiority complex who graduated into the list of the FBI's "Ten Most Wanted Fugitives" through his ruthlessness and utter disregard for the rights and lives of others.

Since the age of eleven, Tenuto has been involved in a series of offenses starting with petty larceny and running the gauntlet of burglary, armed robbery, theft from interstate shipment, second degree murder and prison escape.

As far as escapes are concerned, Tenuto could well be considered an expert. His first breakout was from a protective at the age of fifteen. In 1940, he was sentenced to from ten to twenty years for murder in the second degree, but two years later effected an ingenious escape. Tenuto, employed in the prison as a locksmith, had with a fellow convict smuggled sections of pipe to their cells concealed in pants legs. From these they constructed a ladder. On the night of the escape they left dummies in their beds. Hair was cut from a brush, and soap was used to make the hair stick to pieces of paper formed in the shape of heads. Earphones from the prison radio system were placed over the ears, and each dummy was placed facing the wall so as to appear to be a person listening to the radio. The ladder, however, broke; Tenuto was injured, and he was caught the next day in a nearby house where he had been forced to hide because of his injured feet.

### Two Other Escapes

Again in 1945, Tenuto, together with his new-found friend, Willie "The Actor" Sutton, and other inmates, was involved in a spectacular tunnel escape from the Eastern State Penitentiary. Two months later he was recaptured in New York and returned to Philadelphia.

On February 10, 1947, again in company with Willie Sutton and three other convicts, he overpowered several guards and escaped over a forty-foot wall by means of ladders tied together.

Tenuto was born January 20, 1915, at Philadelphia, the youngest of ten

children. At the age of eleven he was sent to a Philadelphia reformatory listed as a chronic runaway, and from that time on he committed one offense after another until finally he was sentenced for killing one man and seriously wounding another. After this last escape the FBI placed Tenuto on their list of "Ten Most Wanted Fugitives" and charged him with Unlawful Flight to Avoid Confinement after Conviction for the Crime of Murder.

### Tattoos On Arms

The fugitive at the time of his flight was five feet, five inches tall and weighed about one hundred forty-three pounds. His hair is black, eyes brown, complexion dark, and he has a stocky build. There are perfect tattoos on his arms of "S.J." on his left forearm and "ANA," "ANNA," or "AMA" on his right forearm. He has a small brown mole on his right cheek and one and one-half inch scar over his right eye. The fugitive is reported to have a large burn scar on his chest and is rather sensitive regarding this scar and also his short stature. For a long time he wore elevator shoes which increased his height about one inch. Tenuto wears clothes of a conservative color but always appears to be sloppily dressed. He likes bright, flashy ties and usually goes without a hat. His English is generally poor and contains numerous underworld slang phrases. In general, he is quiet in manner but commits crime on the spur of the moment and has been known to stage a holdup just for the purpose of obtaining beer money.

### Is Considered Dangerous

His recreation in the past has included pool playing, swimming, and he is very much interested in prize fights. During the brief periods he has not been in prison, Tenuto has worked as a laborer, a butcher's helper, or painter and may also use his prison vocation of working as a locksmith or sheet metal worker. Tenuto must be considered dangerous and has reportedly boasted that he does not intend to be taken alive. Extreme care must be used in dealing with this fugitive.

The Gettysburg Times, in cooperation with the FBI, requests that anyone who has any information

Dimitri was arrested on an open charge an hour later in Hamilton Twp., adjoining Trenton. Police said he was holding Van Nest boy's family at bay with a stick of dynamite.

### Tries To Clear Himself

They said he was trying to induce Van Nest's father, David; his mother, Alice, and a brother, David Jr., 21, to force their younger son to clear him of the Morrisville charges he said he would have to face.

After a cordon of 15 policemen surrounded the house and pleaded with him not to harm the Van Nest family, Dimitri surrendered. Morrisville Police Chief John Davis and state trooper Eugene Corsi said Van Nest told them the argument was prompted by his refusal to go along with a proposal by Dimitri to "run away." He had worked part time for Dimitri, Van Nest said.

Egypt plans a new high dam on the Nile which is expected to provide water for two million acres of land reclaimed from the desert and to improve production on millions of other acres.

**Sleepy drivers  
sometimes never  
wake up**

Don't drive when you are over-tired and fighting sleep. If you must arrive somewhere in a hurry, take a train, bus or plane—or let a wide-awake driver get behind the wheel. But if that isn't possible, pull off the road into a safe parking place and rest until mind and body can cope efficiently with the demands of highway driving.
